Product Description

Solis H24 Compact Tractor

The Solis H24 is a versatile 24 HP compact tractor engineered for small farms, estates, and light commercial applications. Featuring a smooth hydrostatic transmission and 4WD drive, the H24 delivers precise control for mowing, loader work, and implement operation. Built on the proven Solis platform, this tractor combines reliability with user-friendly operation.

Power and Performance

- Mitsubishi S3L2, 3-cylinder diesel delivering 24 HP for reliable performance across a wide range of applications
- Hydrostatic, 2-range HST providing smooth gear changes and optimal speed selection for any task
- 4WD drive ensures maximum traction on slopes, in mud, and across uneven terrain
- PTO: 540 RPM @ 2451 rpm for powering implements like mowers, tillers, and rotary cutters

Hydraulics and Implement Capability

- Hydraulic system delivers 3.98 GPM to power front-end loaders, backhoes, and hydraulic implements
- Category I 3-point hitch with 1323 lb lift capacity handles a wide variety of implements
- Compatible loader option lifts 1411 lbs, ideal for moving materials, loading trucks, and general utility work
- Quick-hitch compatible 3-point system allows fast implement changes without tools

Operator Comfort and Controls

- Open station design with ROPS for operator safety and excellent visibility
- Comfortable seat with adjustable suspension reduces fatigue on rough terrain
- Intuitive control layout puts all functions within easy reach
- Hydrostatic transmission control via easy-to-use foot pedals for one-hand steering

Technical Specifications

- Operating Weight: 2513 lb
- Wheelbase: 61.8"
- Overall Length: 113.98"

- Overall Width: 47.83"
- Overall Height: 91.53"
- Fuel Tank: 7 gal

Ideal Applications

The Solis H24 excels at estate maintenance, hobby farming, landscaping, and grounds care. Perfect for mowing pastures, maintaining trails, operating a front-end loader for material handling, and running implements like box blades, post hole diggers, and rotary tillers. Compact dimensions allow access to tight spaces while still providing full-size tractor capability.
