Product Description

Solis S75 Cab Compact Tractor

The Solis S75 Cab is a powerful 75 HP utility tractor designed for serious farm and land management work. With its turbocharged 4-cylinder diesel engine and 12F + 12R synchromesh shuttle, this 4WD machine handles demanding tasks like tillage, haying, and heavy loader work with ease. The deluxe cab configuration includes climate control, excellent visibility, and ergonomic controls for all-day comfort.

Power and Performance

- ITL turbocharged 4-cylinder diesel delivering 75 HP for reliable performance across a wide range of applications
- 12F + 12R synchromesh shuttle providing smooth gear changes and optimal speed selection for any task
- 4WD drive ensures maximum traction on slopes, in mud, and across uneven terrain
- PTO: 540 / 540E for powering implements like mowers, tillers, and rotary cutters

Hydraulics and Implement Capability

- Hydraulic system delivers 21.1 GPM to power front-end loaders, backhoes, and hydraulic implements
- Category I 3-point hitch with 5511.55 lb lift capacity handles a wide variety of implements
- Compatible loader option lifts 2866 lbs, ideal for moving materials, loading trucks, and general utility work
- Quick-hitch compatible 3-point system allows fast implement changes without tools

Operator Comfort and Controls

- Fully enclosed cab with heat and air conditioning for year-round comfort
- Large glass area provides excellent 360-degree visibility for safe operation
- Ergonomic control layout reduces operator fatigue during long work days

Technical Specifications

- 3-Point Hitch: Category II
- Operating Weight: 7771 lb
- Wheelbase: 92.5"

- Overall Length: 165.55"
- Overall Width: 82"
- Ground Clearance: 16.33"
- Fuel Tank: 23.2 gal
- Warranty: 3-year machine / 5-year powertrain

Ideal Applications

The Solis S75 Cab is built for production agriculture, large property management, and commercial land care operations. Handle heavy tillage, large-area mowing, hay production, heavy loader work, and utility tasks with ease. The combination of power, hydraulic capacity, and lift capability makes this tractor suitable for livestock operations, crop farming, nursery work, and municipal maintenance duties. The climate-controlled cab enables comfortable operation in extreme heat, cold, rain, and snow.
